- * Enhances Color Retention

For more information and availability go to www.chrysal.com

Chrysal FlowPro 2

Chrysal FlowPro 2 contains just enough nutrients for the natural development of flowers while preventing them from opening too soon. This way your customers can get the maximum enjoyment of their blooms.

Did you know that you can re-use the solution up to 5 days? This means you don't need to change the water and clean the buckets as frequently, saving you time and money.

Benefits:

- * **Convenient Sizes:** From sachets and T-Bags, to 10L Bag in Box, 15 & 50 gallon barrels, and even totes on pallets. We offer flexibility to meet your unique needs.
- * **Saves time** by eliminating the need for stem recutting.
- * **Reduces flower wastage**, minimizing costs.
- * **Extends the distribution and sales period**, maximizing profits.
- * **Decreases water consumption and labor costs** as the solution can be reused.
- * **Minimizes the risk of consumer claims.**
- * **Extends the longevity of flowers by up to 50%** when compared to water alone.
- * **Stimulates water uptake**, preventing “bent-neck” and ensuring upright blooms.
- * **Lowers water pH** for optimal flower health.
- * **Enhances color retention** and keeps leaves and stems firm and green.
