

Chrysal Classic Powder Sachet – *Essential Nutrition for Long-lasting Cut Flowers*

Overview: Chrysal Classic Powder Sachets provide complete nutrition specifically formulated to maximize the freshness and vase life of all cut flowers, ideal for mixed flower arrangements. With a formulation including aluminum sulfate, these sachets enhance flower quality, color, and lifespan.

Key Benefits:

- Extends vase life by up to 30% compared to plain water.
- Ensures full flower opening, enhanced colors, and robust leaf quality.
- Guarantees vase life of over 7 days under proper conditions.
- Lowers water pH, supporting flower freshness.
- Dissolves clearly and without odor in water.

Convenient Application:

- Available in sachets for preparing 0.5 Liter (1 pint) or 1 Liter (1 quart) solutions.
- Eliminates the need to change water or re-cut flower stems throughout the vase life.

Cost Efficiency & Quality Assurance:

- Significantly reduces flower wastage.
- Lowers potential consumer complaints, enhancing overall customer satisfaction.
- Provides excellent quality at minimal cost per stem.

Instructions for Use:

- **Dosage:** One sachet per 0.5 liter (0.5 quart) or 1 liter (1 quart) of tap water.
- **Storage:** Keep in cool, dry, and dark conditions (optimal temperature range 41°F and 77°F / 5°C to 25°C).
- **Shelf Life:** Up to 36 months when stored correctly.
- **Solution pH:** Ranges between 4.0 – 6.0 depending on water alkalinity.
- **Vase Compatibility:** Not recommended for use in unprotected metal vases (zinc, copper, iron) or antique crystal vases.
- **Maintenance:** If necessary, top up vase with additional water mixed with Chrysal Classic Flower Food. Dispose of any residual solutions safely through sewer systems.
