

Chrysal Orchid Food Drops – *Easy & Effective Orchid Nutrition*

Overview: Chrysal Orchid Food Drops offer a simple and effective way to nourish orchids, ensuring optimal health and consumer satisfaction. Formulated with essential nutrients and based on research conducted at the Weiheinstephan Institute in Germany, these drops are designed for easy dosing and long-term care.

Key Benefits:

- Provides essential minerals (Nitrogen, Phosphorus, and Potassium) rapidly absorbed by orchids.
- Includes trace elements to maintain orchid quality.
- Eliminates risk of overfeeding.
- Dissolves clearly and odorlessly in water.

Convenient Application:

- Available in a re-sealable blister pack of 6 Food Drops—sufficient for 12 months of orchid care.
- Easy-to-use format: each drop provides consistent dosage.
- Blister pack can be attached to a plant stick for convenience.
- Back of the pack allows consumers to mark the month of feeding.

Cost Efficiency & Quality Assurance:

- Prevents overuse or underuse of fertilizer.
- Supports long-term plant health with minimal effort.
- Offers added marketing appeal for retailers.

Instructions for Use:

- **Dosage:** Use 1 Food Drop per quart (liter) of water every 2 months.
- **Storage:** Keep in cool, dry conditions (optimal temperature range 41°F and 104°F / 5°C to 40°C).
- **Shelf Life:** Up to 36 months when stored under proper conditions.
- **Application:** Water orchids as usual after adding the Food Drop.
- **Disposal:** Residual solutions can be safely drained into the sewer system.
