

Chrysal Professional 2 Premium T-Bag – *Convenient Conditioning for Cut Flowers*

Overview: Chrysal Professional 2 Premium T-Bag is a floral conditioning product developed for wholesalers, bouquet makers, and retailers. Designed for all cut flowers (except Anthuriums), it delivers the perfect hydration and nutrients needed during the transport and retail phases. This easy-to-use T-Bag format is part of the Chrysal Guarantee Concept.

Key Benefits:

- Extends vase life up to 50% longer than water alone.
- Stimulates water uptake and prevents a bent neck.
- Maintains flower and foliage firmness and color.
- Delays early stem death in roses.
- Improves overall vase life and reduces slimy stems.
- Clear, odorless solution after mixing.

Convenient Application:

- Suitable for all types of tap water.
- Can be dosed manually or automatically.
- Visual dosage control.
- Available in various sizes for different operational needs (1-quart, 1.5-quart, 2-quart, 1-gallon T-Bags).

Cost Efficiency & Quality Assurance:

- Reduces flower waste significantly.
- Decreases water use and labor costs with reusable solutions.
- Extends shelf life and sales periods.
- Helps reduce consumer complaints.

Usage Recommendations:

- **Dosage:** 1 T-Bag per indicated volume of water.
- **Storage:** Keep in cool, dry, and dark conditions (41°F – 77°F / 5°C – 25°C).
- **Shelf Life:** 18 months in sealed packaging under proper conditions.
- **Solution pH:** 3.5 – 5.5, depending on water alkalinity.
- **Reuse:** Solution may be reused for up to 5 days, depending on use and temperature.
- **Compatibility:** Do not mix old and new solutions. Avoid prolonged contact with materials that are not acid-resistant. Do not use in unprotected metal containers (zinc, copper, iron).
- **Disposal:** Residual solution may be safely drained into the sewer system.

Chrysal Professional 2 Premium T-Bag is a smart, simple solution for keeping flowers fresh, hydrated, and vibrant throughout the supply chain.
