

Chrysal Professional Bulb T-Bag – *Specialized Conditioning for Bulb Flowers*

Overview: Chrysal Professional Bulb T-Bag is a conditioning product developed for bulb flowers such as lilies, gladioli, alstroemeria, and tulips. Designed for wholesalers, bouquet makers, and retailers, it supports hydration and provides essential nutrients during the transport and retail phases without triggering full development. It is part of the Chrysal Guarantee Concept.

Key Benefits:

- Extends vase life up to 50% longer than water alone.
- Stimulates water uptake and prevents a bent neck.
- Enhances the color retention of flowers and leaves.
- Maintains firm, green stems and foliage—no slimy stems.
- Clear, odorless solution when dissolved in water.

Convenient Application:

- T-Bag format is designed for use with 2 quarts of water.
- Suitable for all types of tap water.
- Visual dosage control.
- Easy and efficient for retail and wholesale use.

Cost Efficiency & Quality Assurance:

- Reduces flower waste and early loss.
- Minimizes water and labor costs with a reusable solution.
- Extends the display and sales window.
- Helps reduce consumer complaints.

Usage Recommendations:

- **Dosage:** 1 T-Bag per 2 quarts of water, as indicated on the bag.
- **Storage:** Keep in cool, dry, and dark conditions (41°F – 77°F / 5°C – 25°C).
- **Shelf Life:** 18 months in sealed packaging under proper conditions.
- **Solution pH:** 3.5 – 5.5, depending on water alkalinity.
- **Reuse:** Solution may be reused for up to 5 days, depending on use and temperature.
- **Compatibility:** Do not mix old and new solutions. Avoid prolonged contact with materials that are not acid-resistant. Do not use in unprotected metal containers (zinc, copper, iron).
- **Disposal:** Residual solution may be safely drained into the sewer system.

Chrysal Professional Bulb T-Bag offers a practical, reliable solution to enhance the freshness and performance of bulb flowers throughout the floral supply chain.
