Chrysal RosePro Vase – *Specialized Vase Solution for Woody-Stemmed Flowers*

Overview: Chrysal RosePro Vase is a premium vase solution developed specifically for woody-stemmed flowers such as roses and hydrangeas. It provides the optimal balance of hydration and nutrients to support full flower development and long-lasting freshness in vases or floral foam.

Key Benefits:

- Prolongs vase life by up to 60% compared to water alone.
- Maintains natural color and reduces fading.
- Keeps flowers and foliage firm, green, and hydrated.
- Lowers water pH to enhance uptake.
- Mixes clearly in water with no odor.

Convenient Application:

- Ideal for arrangements in glass vases or floral foam.
- Suitable for all types of tap water.
- Can be dosed manually or with an automatic system.
- Dosage can be monitored using a glucometer or pH meter.
- Available in 1-gallon and 50-gallon packaging.

Cost Efficiency & Quality Assurance:

- Reduces overall flower and foliage wastage.
- Enhances the longevity and aesthetic quality of arrangements.
- Reduces flower wastage and enhances customer satisfaction.
- Minimizes the number of consumer claims.
- Supports long-term freshness throughout the vase period.

Usage Recommendations:

- **Dosage:** 10 ml per liter (1/3 fl. oz. per quart) of water.
- **Storage:** Store between 41°F and 77°F (5°C and 25°C) in cool, dry, and dark conditions.
- **Shelf Life:** 18 months in sealed packaging under proper conditions.
- **Solution pH:** 3.5 – 5.5 depending on water alkalinity.
- **Compatibility:** Do not use in unprotected metal vases (zinc, iron, copper) or antique crystal vases.
- **Maintenance:** Use the same solution throughout the vase period.
- **Disposal:** Residual solution may be safely drained into the sewer system.

Chrysal RosePro Vase is the ideal solution for woody-stemmed flowers, ensuring optimal hydration, longevity, and bloom quality.
